Introduction

Garantir is a cybersecurity company experienced in integrating high performing security solutions into the enterprise. We believe that safeguarding your infrastructure should not come at the cost of efficiency, and we develop products that enable our customers to maintain maximum security without impacting performance.

With a wealth of expertise, our team has worked on the digital security needs for many of the Fortune 500 companies. We specialize in digital signatures, key management, certificate lifecycle management, public key infrastructure, secure software development, continuous integration, and secure software delivery.

Our flagship product, GaraSign, is the fastest and most secure cryptographic digital signature platform product on the market. By utilizing a remote hash method and seamlessly integrating into customers' existing environments, GaraSign's speed, security, and strength are unparalleled. Built on an open REST API, GaraSign can securely and efficiently sign code, emails, documents, and data, and supports a large number of client integrations, including custom clients.

Mission

Garantir is dedicated to providing the most advanced cryptographic operations platform on the market. We deliver cybersecurity solutions that protect enterprise infrastructure and data without impeding performance or obstructing workplace integrations.

Core Values

Technical Excellence

Garantir is dedicated to delivering products that are unequivocally the best on the market by every metric imaginable.

Collaboration

Garantir firmly believes in the power of collaboration, with team members, technology partners, and customers alike.

Customer-Centricity

At Garantir, all technical development is guided by the needs of our customers. Customers always come first.

Perpetual Improvement

The Garantir team is committed to continuous innovation and constant development. We're always improving.

Frictionless Solutions

Garantir delivers pragmatic cybersecurity solutions that don't impede performance or interfere with operations.

Logomark

Our logo is the face of Garantir - the primary visual expression that we use to identify ourselves, meaning that we need to be careful to ensure it is used correctly consisely.

Primary Logo

Clear Space

Clear space surrounding a logo prevents type, imagery or other graphic elements from interfering with the legibility of our logo.

No graphic elements should encroach the border around the logomark. This space is determined by 50% width of the logomark on each side. Measure the clear space for primary logomark by the height of the letter 'G'.

Logo Variations

At times, our logomay be used on in an environment that will depend on the background and production method. When using the logo on a white background. you can use our full color version or green color background logo.

Full color

One color : Reverse

Do Not: Logomark

Do not resize or change the position of our logo.

Do Not: Fonts

Do not use any other font, no matter how close it might look.

Do Not: Sizing

Do not resize or squash our logo. Any resizing must be in proportion.

Do Not: Color

Do not change the colors, even if they look similar. Use the official colour specifications detailed in these guidelines.
